

Environment Day 2024

Mango Seed collection

Sophia Interact Club and Environment Studies department commemorated Environment Day 2024 meaningfully on June 5th, 2024. Keeping in step with the theme Land restoration, desertification and drought resilience the whole school was reminded through circulars and by motivating promo videos to bring in dry mango seeds for distribution to farmers by Gram Samriddhi Foundation.

Thus becoming part of a macro scheme of the foundation to collect 10 lakh mango seeds, plant them to grow and graft mango plants and distribute to poor farmers to improve their lives. This would also increase green cover, soil fertility, help biodiversity and ecological economics.

The whole event was micromanaged by Principals Sr.Alpana, Sr.Vishala, Sr.Madhuja and Treasurer Sr.Pushpa who provided the inspiration and logical support for the same.

Extra care was taken to dry up the mango seeds thoroughly after collection before couriering it to the final destination.

This activity has sparked off the idea of starting young to restore the earth to its green self.
